DYNE CHRISTELLE H. SOMBERO

EDUCATION

Notre Dame of Marbel University, Philippines — **Koronadal, Ph**

Bachelor's of Science in Computer Science — *Sept. 2022- May 2025*

Award: Best Student Research 2025 (Data Science and Algorithm Category). Thesis on "Improving Prediction of Infectious Disease Outbreak s using Attention-based Long Short-term Memory (LSTM) Model with Honey Badger Optimization for Hyperparameter Tuning".

WORK EXPERIENCE

UI Developer

February 2026 - Present

DSLC Data Connect, Inc. / On-Site • Davao, PH

- Designed and built user interfaces, forms, and templates for internal systems, working from user requirements gathered in collaboration with technical teams to deliver intuitive, consistent UI/UX across on-site operations.
- Troubleshot and resolved system and interface issues while improving existing processes, streamlining workflows and reducing user friction through iterative refinements based on feedback.

AI Researcher

February 2026 - July 2026

AI Transfer Lab Company / Remote • Euro-Based

- Authored and published in-depth Medium articles analyzing emerging AI developments (agentic reliability, verification gaps, guardrail architecture), translating technical research into accessible insights for a developer audience.
- Grew company LinkedIn from 0 to 200+ followers through consistent content and strategic engagement with AI practitioners and developers.
- Built insightful connections with researchers and web developers via targeted engagement, generating inbound collaboration and client prospects.
- Designed visual content (carousels, diagrams) to accompany written pieces, improving engagement and shareability across LinkedIn and Medium.

Frontend Developer

September 2025 - November 2025

Maggymaid Company / Remote • US-Based

- Contract-based role focused on admin-facing CRM dashboard including leads, customers, bookings, messaging, teams, availability, and settings.
- Created reusable UI components with React, TypeScript, andTailwind CSS for scalable frontend architecture.
- Integrated frontend modules with REST APIs for real-time bookings, calendars, and team management.
- Developed automated n8n workflows integrating WordPressREST API and OpenAI for SEO content generation.
- Reduced manual content publishing workload by 80% through end-to-end automation workflows.

Full-Stack Developer (OJT / Internship)

May 2024- July 2024

Information Technology Division / On-site • Provincial Government of South Cotabato

- Developed a full-stack data banking system using ASP.NET (C#) improving data retrieval speed by 30%.
- Designed and optimized SQL queries, reducing report generation time by 40%.
- Collaborated in a 5-person Agile team, contributing to 90% of front-end UI components and backend integration.
- Used GitHub Desktop to manage 15+ pull requests, resolving code conflicts and ensuring smooth version control.

PROJECTS

Agentic AI Research Articles — **Medium | LinkedIn | Excel |Claude |GPT 5**

- Authored and published in-depth Medium articles analyzing emerging AI developments, including agentic reliability, verification gaps, and guardrail architecture, translating technical research into accessible insights for a developer audience.
- Repurposed each piece as native LinkedIn posts and replied to practitioner comments, turning readers into ongoing conversations with researchers and developers.

SEO Automization for Wordpress — **n8n**

- Built end-to-end automation workflows in n8n to create, update, and optimize WordPress posts.
- Automated full content lifecycle: fetching and modifying existing posts, enhancing SEO, updating featured images.
- Reduced manual posting workload by 90% through advanced workflow design, error handling, and modular automation steps.

Admin Management System (CRM) — **React.js | Typescript | Tailwind CSS**

- Developed a full admin-facing CRM web application with core modules for leads, customers, bookings, messaging, teams, and settings.
- Built scalable and reusable UI components using React, TypeScript, and Tailwind CSS for a consistent and maintainable system.
- Implemented advanced data tables with search, filtering, sorting, and pagination to improve data management efficiency.
- Integrated REST APIs for real-time handling of bookings, calendars, leads, and team assignments.

Real Estate Website UI — **Next.js | Typescript | Tailwind CSS**

- Designed and implemented a fully responsive frontend interface for mobile, tablet, and desktop, ensuring a seamless user experience across devices.
- Built 20+ reusable UI components using Tailwind CSS to improve development speed and maintain design consistency.
- Optimized accessibility and SEO performance, achieving 97%+ Lighthouse scores and improving overall site usability.

E-commerce — **MongoDB | Express JS | React.js | Node.js**

- Developed a full-stack e-commerce platform supporting real-time checkout and managing 100+ products.
- Integrated REST APIs and MongoDB to improve performance and reduce load times by 60%.
- Built a secure authentication system using JSON Web Token (JWT) and password hashing to protect user data and manage 20+ test accounts.

Product Marketing Landing Page — **Next.js| React | TypeScript |Tailwind CSS | Radix UI**

- Developed responsive advertorial landing pages for performance marketing and AdTech campaigns.
- Implemented conversion-focused UI components, including video sections, availability indicators, lead forms, CTAs, and countdown timers.
- Built optimized user flows from advertorial content to lead capture, supporting engagement, tracking, and conversion goals.

SEMINAR

Philippine Society of Information Technology Students Regional Convention — **Gensan, Ph.**

April 28-29 2023

SKILLS

Languages: C#, JavaScript, TypeScript
Web Technologies & Tools: React.js, Next.js, Node.js, ASP.NET, HTML5, CSS3, Tailwind CSS, Express.js, Bootstrap 5,Figma
Databases & Cloud Platforms: Microsoft SQL Server, MongoDB, Azure, AWS, Vercel
AI, Data & Analytics Tools: KNIME, Google Colab, Google Earth Engine, LLMs, ML tools, n8n, Excel, Google Sheets,Claude,GPT 5
CI/CD & Version Control: Git, GitHub, GitHub Desktop
